

CI Future

Ready for everyday changes

We understand how it would be for the Thai people in every region to encounter with illness and new diseases which may be occurred in the future.

Northern Region

I have never expected to encounter with new diseases which cause such change of my life. I wonder will there be any new diseases in the future?

Central Region

“My acquaintance’s coma stage illness required a long hospitalization, and I can’t imagine on how much treatment fee must be paid.”

Northeast Region

I wonder whether the insurance identifying its coverage of 40 – 50 critical diseases will actually and completely cover all diseases.

Southern Region

At the time of purchasing insurance, I thought that it will cover serious illness. On the contrary, it wasn’t what I thought. Finally, I had to pay from my own pocket.
